

BizTools Pro

Description

BizTools Pro is a powerful app designed to help you with ninety nine percent of your business decisions and is extremely easy to use. It provides you with your own MBA toolkit to help you operate your business. And if you are a student in Business or getting your MBA it is invaluable. Use it to help you learn and complete your program of study. The app comes with over 40 major functions directed toward monitoring , evaluation and planning a business. It covers four major areas of Accounting , Forecasting , Operations and Investments. Everything is included. With Accounting you can track and evaluate your business , it provides financial statements and financial ratios needed to view how your business is doing. It also contains a valuable graphical trending tool that will trend each account and each accounting performance ratio. Also provided is a monthly cash planner that can be initialized from historical data and allows you to view your cash flows in monthly periods for a year. Forecasting consists of Sales Forecasting and Financial Forecasting. The Sales Forecast takes as input historical financial data or manually input data and produces a sales forecast for the future. Financial Forecasting can be initialized from historical data or manual data and produces a forecast of the Income Statement, Balance Sheet and Performance of the company into the future. It also provides a cash flow forecast so you can see your cash needs for the future. The Operation Functions contain numerous functions to help you plan the operation of your business. It covers production planning, inventory control , Break Even Analysis , Depreciation Accounting, Margins and Markup, Business Statistics , manufacturing functions and a General Forecasting function for forecasting production variables. Investments includes numerous apps covering bonds, financing , stock , business valuation , capital budgeting and numerous other functions to help you manage you and your company's investments. BizTools Pro also includes a comprehensive Scientific and Financial calculation that contains over 80 functions and has its own equation library. BizTools Pro is the most comprehensive software app you can buy to manage and plan your business.
